Office of Head Start

2014-2015 Head Start Program Information Report - 2014-2015 PIR Import Format

2014-2015 PIR XML Import Requirements

The Office of Head Start provides a PIR XML import format for importing data files directly into a 2014-2015 PIR in HSES
This enables Head Start Grantees and Delegates to import data from other vendor systems that generate PIR XML format compliant Import files.

Import files configured in accordance with the 2014-2015 PIR XML Import Format for each question:

- have proper XML structure (ensuring successful import).
- are configured for the 2014-2015 PIR Form questions (ensuring question alignment).
- are ready to import (ensuring data integrity).

The 2014-2015 PIR XML Import Format has had changes since last year:

- Section A: New PIR question A.11, a system calculated question, resulted in renumbered (A.11-A.30) with an increase of 1).
- Section C: New PIR questions C.54 & C.54.a resulted in renumbering (C.54 – C.58) with an increase of 1).

The 2014-2015 PIR XML Import Format specifications and supporting details are listed below in the following sections.
