Early Head Start (EHS) Start-Up Planner Database Search Options

This Early Head Start (EHS) Start-Up Planner database provides a list of consultants that have been trained by ZERO TO THREE as start-up planners through a task order contract from the Office of Head Start. These consultants can offer their services to new and expanding EHS programs. It is up to each EHS program to select and contract with a start-up consultant to work with their program. Grantees must fully consider their own needs when selecting a start-up planner that is appropriate for their program. Grantees are encouraged to interview more than one consultant before selecting the individual they wish to contract with to support them through their start-up process.

Leave the search fields blank to return a list of all available consultants.
