

## Sorting Shapes

Teacher: Who can find me a square?

Child: I found a little star.

Child: A square.

Teacher: A what?

Child: A little star.

Teacher: A little star. A little red star.

Child: A square.

Teacher: Is that a square?

Child: Yeah.

Teacher: How many sides does that square have?

Child: Nine.

Teacher: How many sides?

Child: One, two.

Teacher: You're right. You traced it. Ready? one, two, three, four.

Child: Four.

Teacher: Four! Okay, so right here. Can you find me another square?

Child: I found one, too.

Teacher: So where is that square going to go?

Child One: I found another square!

Child Two: Here. Here.

Child One: One, two, three, four, five, six.

Teacher: Six? Let's try that again. Let's try that again. Ready? Follow my finger. One, two, three, four.

Child: Four!

Teacher: Four! Good job!
