

Using Language and Vocabulary: Attract and Repel

Teacher: They're attracting, sticking to each other. You get to keep the magnet, and we'll leave the clip right here.

Girl: Ms. Jackie, let me see.

Teacher: See how the arrows go together?

Girl: Yeah.

Teacher: That means they're going to attract, stick to each other.

Girl: That means no attract stick.

Teacher: That's right, no attraction. Those repelled each other, the shell and the foil.

Girl: Yeah, oil and pell, that means, no, you can't stick it. That means you can stick it.

Teacher: That's right, you're understanding all about magnets.
