

OHS-PSA3: Lady Bird Johnson

[Music]

Lady Bird Johnson: Some children may be dropouts at age four. These children need special care. A Head Start volunteer can help make the difference. This summer a half a million children, children of low income or no income families will need your help. A Head Start volunteer helps children to trust the stranger who would teach them.

Whether a student, a housewife, or a grandparent, won't you help lead these children to a new world through learning? Even a half day a week will help. Be one of those volunteers for Head Start who would say to a young child: "Come, take my hand."
