## *Stop, Think, Act: Supporting Executive Functioning and Self-Regulation from Birth Through Early Childhood*

Is there any way we can get copies of her slides? They are not in the packets, we were given. Thank you!
enjoy the hot and cold emotional concept
It is good to get back down to the very basics
Sara Fread, the slides are in a pdf and the pdf is one of the handouts for this session
<a href="http://www.prolibraries.com/zerotothree/events/ehs2015/schedule">http://www.prolibraries.com/zerotothree/events/ehs2015/schedule</a>
Thanks Tamika!
Sara this is the link
I like the wholeness as well Toya, I think of my grand daughter and her imagination. It is awesome I love watching her create.
Thank you
slides are available in the session page. can ne printed if you open up another tab
Sing a song that will keep there hands busy
Go over to the child and let him know that hands are not for hitting. We can use our hands to hug our friends.
This hot- cold concept is something new! I also like Shauna's anecdotal examples that are set in practical daily work with children.
the key may be to learn the children more personally so you can assess the situation properly
Don't we all :)
I agree Heather...Shauna...I could listen to her all day...excellent examples...thank you
Will we have access to the slides for this presentation?
The slides should be posted with the recorded presentations in about 2 weeks
Denise, the slides are also in a pdf handout for this session.
thx!
Hello from Oklahoma!
I've never done these before. Does anyone know if they give certificate at the end of the training?
Good Afternoon
Teffany, you will need to complete each session evaluation to obtain your CEUs
How does genetic tendencies relate with self-regulation development?
How might we access the research/source Dr Tominey just shared (1:30pm) about a child's attention span in preschool predicting later college/life success?
Where do I find that?
Thank you Misha. I shared that question to her queue.
Teffancy Cassity - there is a blank certificate of attendance at the back of the vBTT program.
I was unable to locate the evaluation tab for the last presenter. Is there a way for you to send me the link?
<a href="http://www.prolibraries.com/zerotothree/events/ehs2015/evaluation">http://www.prolibraries.com/zerotothree/events/ehs2015/evaluation</a>
Thank you!
Ms. Tominey's extended experience (in the classroom, as a home educator, mother herself) + knowledge = Great presenter who shares many practical examples & tips. Thanks!
Good Afternoon

I think when we truly understand what these children have to deal with on a daily basis , the trigger moment allows me to reflect on why this behavior is happening, helps me to self-regulate myself.
And again!!
I think the connection issue might be related to using wifi for internet. If you can switch to a different computer that has a cable connection or hardwired internet connection, it might work better.
