

THE FIRST D.R.O.P.—SELF-REFLECTION

This form is a tool to focus teachers on creating a caring classroom community. By reflecting on everyday practices, teachers can more effectively create a caring community in the classroom. Teachers can complete the form alone and discuss their responses with a supervisor. For more information on the questions listed below, please refer to Tips for Teachers. Supervisors are encouraged to provide positive feedback when D.R.O.P. strategies are used in the classroom.

Teacher: _____ Supervisor: _____ Classroom: _____ Date: _____

In the past week, how have I....	Examples	Ideas for the future
D eveloped a caring environment?		
R esponded to individual needs?		
O rganized awareness activities?		
P romoted and encouraged a sense of community?
