

Mathematics Knowledge and Skills: Geometry: Drawing-Shapes

Teacher: What shapes do you know?

Girl: Circle. Triangle. Rectangle.

Teacher: Any of the other shapes? Which one is the square? I'm going to do that in green, so I remember that I asked you, okay? And which one is the diamond? And then, Jamy's going to draw some more shapes on the back of hers that she knows how to draw. Do you want to draw some other shapes on the back?
