

Mathematics Knowledge and Skills: Geometry: Mealtime-Geometry

Teacher: Let's try it. Do you guys see any circles on our table? Oh, our plates are circles! Check it out! Okay, let's pass the square bowl -- see, square -- square bowl of crackers around. And you can take two. [laughs] Actually, you don't need these because they're wrapped. You can take two rectangle crackers.

Child: Is this a circle?

Teacher: That's a circle. The top of this bowl is a circle. Check it out. Look what Ifrah noticed.

Girl: We can have two?

Teacher: Two packages of rectangle crackers.
