

## FY 2020 Focus Area Two Monitoring Protocol

### Purpose

The Focus Area Two (FA2) review is an opportunity for grantees to demonstrate their effectiveness in implementing a high-quality program to promote positive outcomes and school readiness for children and their families. This focus area is designed to broaden the Office of Head Start's (OHS) understanding of each grantee's performance and to determine if programs are meeting the requirements of the Head Start Program Performance Standards (HSPPS), Uniform Guidance, and the Head Start Act.

### Road Map to the Focus Area Two Protocol

This protocol will guide the discussions between the grantee and reviewers during the FA2 review. It includes areas of discussion, specific performance measures, and the associated Federal regulations. The protocol is divided into the following six sections:

- Program Management and Quality Improvement
- Education and Child Development Services
- Health Program Services
- Family and Community Engagement Services
- Fiscal Infrastructure
- Eligibility, Recruitment, Selection, Enrollment, and Attendance (ERSEA)

### Federal Regulations

Each section of the protocol includes a list of Federal regulations grounding the discussions. This list ensures transparency regarding the regulations used to assess grantee performance. Grantees should note that they remain accountable for all of the HSPPS as well as other Federal, State, and local regulations guiding program operations, management, and oversight.

### What We Want to Learn

This section of the protocol outlines the topic areas the reviewers will explore and the methodologies reviewers will use to learn about grantee performance (e.g., data tours, explorations of classrooms, discussions with managers, teachers, parents, and the governing body). The statements and questions listed in this section are designed to stimulate a meaningful discussion that provides grantees with an opportunity to describe the intentionality behind their program design, decisions, and operations. They also allow grantees to describe the challenges they have experienced, the strengths they have developed, and their strategies for continuous program improvement.

The questions and statements in the *What We Want to Learn* section are not intended to be exhaustive or to limit discussion. Using the *What We Want to Learn* section as a guide, the reviewers and the grantee may engage in discussions beyond the questions included in the protocol.

## Performance Measures in the Monitoring Protocol

The performance measures identify the areas of performance that are the focus of the monitoring protocol. Each performance measure indicates the Federal regulations associated with that measure.

### Focus Area Two Review Information

Grantees participating in the FA2 review will receive notification (*60-day letter*) of the upcoming review. The assigned Review Lead will contact the grantee following the notification and will partner with the grantee to prepare for the review (*planning call*). The grantee must provide an updated child/pregnant woman list; this list will determine the sample for the ERSEA child/pregnant woman file review. During the week prior to the on-site review, the Review Lead will provide the classroom exploration sample that is determined based on the classrooms entered in the Head Start Enterprise System (HSES).

The review team responsible for conducting the FA2 review consists of a Review Lead, a fiscal reviewer, and two FA2 reviewers. The team size may vary depending on the size of the grantee. The FA2 review includes, but is not limited to, the ERSEA File Review (includes children and pregnant women), Data Tours, Center and Classroom Explorations, Management Team Discussions, Teacher Discussions, Governing Body and Policy Council Discussions, Parent Discussions, and Fiscal Explorations. The review team will meet the grantee's management staff the morning of the first day of the review. This *management team meeting* allows the review team to build on knowledge learned from the pre-site document review (grant application, PIR data, etc.) and conversations with the Regional Office.

*Data tours* start on the first day and allow the review team to understand the types of data the grantee collects to inform ongoing continuous improvement. Program leadership and the program managers overseeing health, fiscal, education, and family services will demonstrate how data are used and how each service area collaborates to ensure the provision of quality services. The ERSEA file review also occurs on the first day of the review; a grantee guide is requested to ensure the file review goes smoothly.

*Service area explorations* continue through the week. Reviewers visit classrooms, discuss service delivery, and explore fiscal management. The grantee will assign guides to each reviewer conducting classroom explorations. The guides will provide information that further explains what the reviewer is observing in the classroom. Discussions will occur with families, direct service staff, the director, managers, the governing body, and the policy council to gain further insight about how children and their families are supported.

---

#### **Reviewer Consistency:**

*All reviewers are trained on the implementation of the protocol. They are trained to have grantee lead discussions related to the topics in each section and collect data based on the standards that are the focus of that section. The reviewers are trained to capture what the program shares about each of the topics and to gather information about the grantee's description of how they met the standards.*

## *Program Management and Quality Improvement*

### Overview

The Program Management and Quality Improvement discussion with the management team begins on the first day of the FA2 review event. The grantee will describe and demonstrate how they implement their program management system to promote quality improvement. During the data tours, the review team will review data and have discussions with program management staff about the program's progress, implementation, success, and risks.

The Program Management and Quality Improvement section of the protocol includes three areas: *program management*; *ongoing oversight and continuous improvement*; and *program governance*. The review team will measure the ability of the Director and the management team to deliver high-quality services, continuously monitor program services, make improvements as needed, and achieve program goals. The review team will also monitor the engagement of the governing body and policy council.

## ***Monitoring and Implementing Quality Education and Child Development Services***

### **Overview**

The Quality Education and Child Development Services section has a new focus: “Alignment with School Readiness.” The grantee will describe how the program’s school readiness efforts align with the expectations of the children’s receiving schools and if they have information from the kindergarten readiness assessment of the receiving schools. The OHS wants to capture rich data around this topic area. The openness of the questions gives grantees the opportunity to describe how their school readiness and transition efforts are based on the needs of the children enrolled in their program.

The Quality Education and Child Development Services section explores four areas: *school readiness efforts; teaching practices that promote progress toward the next learning environment; the support for teachers in school readiness efforts; and the quality of home-based services.* These sections are interrelated and collectively provide information about the program’s ability to prepare children for their next learning environment.
