Purpose
The Focus Area 2 (FA2) review is an opportunity for recipients to demonstrate their effectiveness in implementing a high-quality program to promote positive outcomes and school readiness for children and their families. This focus area is designed to broaden the Office of Head Start’s (OHS) understanding of each recipient’s performance and to determine if programs are meeting the requirements of the Head Start Program Performance Standards (HSPPS), Uniform Guidance, and the Head Start Act.

Road Map to the Focus Area Two Protocol
This protocol will guide the discussions between the recipient and reviewers during the FA2 review. It includes areas of discussion, specific performance measures, and the associated federal regulations. The protocol is divided into the following six sections:

- Program Design, Management, and Quality Improvement
- Education and Child Development Services
- Health Program Services
- Family and Community Engagement Services
- Fiscal Infrastructure
- Eligibility, Recruitment, Selection, Enrollment, and Attendance (ERSEA)

Federal Regulations
Each section of the protocol includes a list of federal regulations grounding the discussions. This list ensures transparency regarding the regulations used to assess program performance. Recipients should note that they remain accountable for all the HSPPS as well as other federal, state, and local regulations guiding program operations, management, and oversight.

What We Want to Learn
This section of the protocol outlines the topic areas the reviewers will explore and the methodologies reviewers will use to learn about recipient performance (e.g., data tours, explorations of classrooms, discussions with managers, teachers, parents, and the governing body). The statements and questions listed in this section are designed to stimulate a meaningful discussion that provides recipients with an opportunity to describe: the intentionality behind their program design, decisions, and operations; the challenges they have experienced; the strengths they have developed; their strategies for continuous program improvement; and their strategies for creating a workplace culture that promotes diversity, belonging, and inclusion. In addition, OHS wants to learn about how programs are responding and adapting throughout the COVID-19 pandemic.

The questions and statements in the What We Want to Learn section are not intended to be exhaustive or to limit discussion. Using these sections as a guide, the reviewers and the recipient may engage in discussions beyond the questions included in the protocol.
New in FY 2022 Outcomes

The FA2 review event will provide recipients with the opportunity to share the types of data collected to measure outcomes for each program area. In addition, the recipient will share the outcomes the program has achieved thus far in each service area, strategic refinements the program is making to ensure continuous improvement, and the progress made toward achieving outcomes.

Performance Measures in the Monitoring Protocol

The performance measures identify the areas of performance that are the focus of the monitoring protocol. Each performance measure indicates the federal regulations associated with that measure.

Focus Area Two Review Information

Recipients participating in the FA2 review will receive notification (45-day letter) of the upcoming review. The assigned review lead will contact the recipient following the notification and will partner with the program to prepare for the review (planning call).

The Review Team responsible for conducting the FA2 review consists of a review lead, a fiscal reviewer, and two FA2 reviewers. The FA2 review includes, but is not limited to, the sample ERSEA file review (includes children and expectant families), classroom explorations, data tours, Management Team discussions, governing body and policy council discussions, and fiscal exploration. The Review Team will meet the recipient’s Management Team the morning of the first day of the review. This Management Team meeting allows the Review Team to build on knowledge learned from the pre-site document review (e.g., grant application, Program Information Report data, etc.) and conversations with the Regional Office.

Data tours start on the first day and allow the Review Team to understand the types of data the recipient collects to inform ongoing continuous improvement. Program leadership and managers overseeing health, fiscal, education, and family services will demonstrate how data are used and how each service area collaborates to ensure the provision of quality services. They also will share data that show progress toward achieving results and outcomes in each service area.

Service area explorations continue through the week. Discussions will occur with families, direct service staff, the director, managers, the governing body, and the policy council to gain further insight about how children and their families are supported.
Program Management and Quality Improvement

Overview

Purpose
The Program Management and Quality Improvement section of the protocol includes three areas: program management, ongoing oversight and continuous improvement, and program governance. The Review Team will listen to discussion and review data to understand the ability of the Director and the Management Team to deliver high-quality services, continuously monitor program services, make improvements as needed, and achieve program goals and desired outcomes. The Review Team will also monitor the engagement of the governing body and the policy council.

Approach
The Program Management and Quality Improvement discussion with the Management Team begins on the first day of the FA2 review event. The recipient will describe and demonstrate how they implement their program management system to promote quality improvement. During the data tours, the Review Team will review data and have discussions with program management staff about the program’s progress, implementation, success, and risks.

Program Outcomes
The recipient will share how the program collects data to monitor its own progress in achieving outcomes, as well as the program’s reported achievements to date in each content area. The discussion includes a focus on where the program is making progress, where the program is experiencing challenges, and how the program uses its data to inform continuous improvement across the program. In addition, the governing body will demonstrate how they use data (both program data and external information) to oversee the provision of quality services for children and families and to ensure progress toward school readiness.

Monitoring and Implementing
Quality Education and Child Development Services

Overview

Purpose
The Quality Education and Child Development Services section explores four areas: school readiness efforts; teaching practices that promote progress toward the next learning environment; support for teachers in school readiness efforts; and the quality of home-based services. These sections are interrelated and collectively provide information about the program’s ability to prepare children for their next learning environment.

Approach
The recipient will describe how the program’s school readiness efforts align with the expectations of the children’s receiving schools and if they have information from the kindergarten readiness assessment of the receiving schools. OHS wants to capture rich data around this topic area. The openness of the questions gives the program the opportunity to describe how their school readiness and transition efforts are based on the needs of the children enrolled in their program.

Program Outcomes
The recipient will share the data used to assess progress toward meeting the program’s school readiness goals, and the data used to understand, track, and address children’s individual needs. The recipient will also demonstrate how the data are used to inform continuous improvement related to curriculum selection, instruction, and professional development.

Note: Receiving schools refers to schools and programs where enrolled children will attend upon completing the Head Start or Early Head Start program.
