HEALTHY STATES: HEALTH AND SAFETY TRAINING TOOLKIT

School readiness begins with health!

NATIONAL CENTER ON
Early Childhood Health and Wellness

School readiness begins with health!
HOW TO USE THIS RESOURCE:

This tool can be used by state and territory CCDF administrators and training and technical assistance staff as a guide to obtain up-to-date, research/science-informed resources and practices for the development of health and safety trainings.

The tool also includes resources for states to use for health and safety trainings (e.g. including online modules, training materials, webinars, and other written and online resources).

For Child Care Health Consultants:

This tool can also be used with existing health and safety trainings to train program level staff by child care health or nurse consultants or health managers in early childhood education settings. It can also be used by training staff in child care centers and family child care homes to identify resources and materials for training of staff in programs on health and safety topics.

SUMMARY OF HEALTH AND SAFETY REQUIREMENT OF THE CHILD CARE DEVELOPMENT BLOCK GRANT (CCDBG) ACT OF 2014 (SEC. 658E(C)(2)(I))

The plan shall include a certification that there are in effect within the state, under state or local law, requirements designed to protect the health and safety of children that are applicable to child care providers that provide services for which assistance is made available under this subchapter. Such requirements (i) shall relate to matters including health and safety topics consisting of:

I. the prevention and control of infectious diseases (including immunization) and the establishment of a grace period that allows homeless children and children in foster care to receive services under this subchapter while their families (including foster families) are taking any necessary action to comply with immunization and other health and safety requirements;

II. prevention of sudden infant death syndrome and use of safe sleeping practices;

III. administration of medication, consistent with standards for parental consent;

IV. prevention of and response to emergencies due to food and allergic reactions;

V. building and physical premises safety, including identification of and protection from hazards that can cause bodily injury such as electrical hazards, bodies of water, and vehicular traffic;

VI. prevention of shaken baby syndrome and abusive head trauma;

VII. emergency preparedness and response planning for emergencies resulting from a natural disaster, or a man-caused event (such as violence at a child care facility), within the meaning of those terms under section 602(a)(1) of the Robert T. Stafford Disaster Relief and Emergency Assistance Act (42 U.S.C. 5195a(a)(1));

VIII. handling and storage of hazardous materials and the appropriate disposal of bio-contaminants;

IX. for providers that offer transportation, if applicable, appropriate precautions in transporting children;

X. first aid and cardiopulmonary resuscitation;

XI. minimum health and safety training, to be completed pre-service or during an orientation period in addition to ongoing training, appropriate to the provider setting involved that addresses each of the requirements relating to matters described in this section;

XII. may include requirements relating to nutrition, access to physical activity, recognition and reporting of child abuse and neglect, caring for children with special needs, or any other subject area determined by the state to be necessary to promote child development or to protect children's health and safety.
This tool refers to the reference guides below, which can help Head Start program and early childhood education setting staff understand health and wellness topics and develop plans and policies to ensure health and wellness in their programs:

This tool refers to resources that will assist programs in achieving two levels of competence: Caring for Our Children (CFOC) Basics, which are minimum Child Care and Development Fund (CCDF) requirements, and best practices, which exceed CCDF requirements. If there are more stringent local requirements, programs should adhere to those. A third section, refers to additional resources that address evidence-based information on each specific topic area, and the fourth section provides resources that can be distributed to families for consumer education.

The graphic below illustrates how the CFOC Basics integrate with health and safety topics. The items in blue are CFOC topics and the items in orange are CCDBG health and safety topics:

### CFOC Basics and CCDBG Topics

1. **Staffing**
   - First Aid/CPR training

2. **Program Activities for Healthy Development**
   - Child development

3. **Health Promotion and Protection**
   - Emergency preparedness
   - Medication administration
   - Safe sleep
   - Shaken baby syndrome
   - Child abuse and neglect

4. **Nutrition and Food Service**
   - Food allergies

5. **Facilities, Supplies, Equipment, Environmental Health**
   - Building safety
   - Handling hazardous materials

6. **Play Areas/Playgrounds and Transportation**

7. **Infectious Disease**
   - Infectious disease

8. **Policies**

### ADDITIONAL RESOURCES:

*Caring for Our Children Basics Health and Safety Standards Alignment Tool for Child Care Centers and Family Child Care Homes* provides a simple format for states and territories to compare their current early childhood program requirements and standards against the recommended health and safety standards in CFOC basics.

*The National Database of Child Care Licensing Regulations* serves as a resource that can help in developing a training that is aligned with state and territory requirements.
INFECTIONIOUS DISEASES

The resources below provide basic guidelines, best practices, and information about many infectious diseases (including signs, symptoms, how they spread, how to prevent/reduce, manage and respond to them in early childhood education settings). Local licensing requirements are available here.

BASIC REQUIREMENTS

**Health Promotion and Protection**
- 3.2.2.1 Situations That Require Hand Hygiene
- 3.3.0.1 Routine Cleaning, Sanitizing and Disinfecting
- 3.2.3.4 Prevention of Exposure to Blood and Bodily Fluids
- 3.6.1.1 Inclusion/Exclusion/Dismissal of Children
- 3.6.1.4 Infectious Disease Outbreak Control

**Infectious Diseases**
- 7.2.0.1 Immunization Documentation
- 7.2.0.2 Children not immunized
- 7.2.0.3 Immunization of Caregivers/Teachers

BEST PRACTICE

**Health Promotion and Protection**
- Hand hygiene, cleaning, exposure, inclusion/exclusion, outbreak control (p. 118)

**Infectious Diseases**
- How infections Spread (p. 317)
- Immunizations
- Disease specific info

**Exemptions/Exclusions**
- Documentation of Exemption and Exclusion of Children who Lack Immunizations (p. 383)

ADDITIONAL RESOURCES

**Infectious Diseases: Prevention and Management**
- Webinar
- Resources on specific diseases
- Vaccinations
- Prevention (p. 15)
- Exclusion/Inclusion Criteria (p. 41)
- Emergencies (p. 179-184)

**Model Child Care Health Policies**
- Risk Reduction Policy (p. 47)
- Infection Control Plan (p. 85)

FAMILY RESOURCES

- Overview of Infectious Disease English and Spanish
- Hand Hygiene Hand Washing: A Powerful Antidote to Illness

Note: In 2014, the Child Care and Development Block Grant was reauthorized (P.L. 113-186). The new law requires states to develop their own strategies to better serve children experiencing homelessness and calls for a grace period or flexibility to obtain immunizations and other documents needed so that children experiencing homelessness can be served more quickly.
SAFE SLEEP

The resources below provide basic guidelines, best practices, and information about sleep safety in early education settings (including information on swaddling, use of pacifiers, and sleep arrangements). Local licensing requirements are available here.

BASIC REQUIREMENTS

Safe Sleep

3.1.4.1 Safe sleep practices and SIDS reduction

ADDITIONAL RESOURCES

News You Can Use: The Culture of Sleep and Child Care

Model Child Care Health Policies (5th Edition)

- Sleep Practices (p. 35)
- Safe Sleep Arrangements for Infants (p. 36)

BEST PRACTICE

Safe Sleep

- Chapter 3 (p. 102)
- Safe sleep practices
- Swaddling
- Pacifier use
- Sleep arrangements

FAMILY RESOURCES

- Safe Sleep for Babies English and Spanish
- Safe to Sleep English and Spanish

Up to date policy statement by AAP:
Note: http://pediatrics.aappublications.org/content/138/5/e20162938 for updated guidelines from AAP on Safe Sleep. SIDS and Other Sleep-Related Infant Deaths: Updated 2016 Recommendations for a Safe Infant Sleeping Environment TASK FORCE ON SUDDEN INFANT DEATH SYNDROME
MEDICATION ADMINISTRATION

The resources below provide basic guidelines, best practices, and information about medication administration in early education settings (including training staff, storage, labeling, and emergency medications). Local licensing requirements are available here.

**BASIC REQUIREMENTS**

*Health Promotion and Protection*
- 3.6.3.1/3.6.3.2 Medication Administration and Storage
- 3.6.3.3 Training of Caregivers/Teachers to Administer Medication

*Policies*
- 9.2.4.1 Written Plan and Training for Handling Urgent Medical Care or Threatening Incidents

**ADDITIONAL RESOURCES**

*Managing Chronic Health Needs in Child Care and Schools*
- Medication Administration Issues (p.33)

*Model Child Care Health Policies (5th Edition)*
- Medication Administration (p. 75)
- Medication for Emergencies (p. 91)
- Appendix X - Medication Administration Packet (p. 179)

**BEST PRACTICE**

*Health Promotion and Protection*
- Chapter 3 (p. 153)

*Management of Illness*
- Medication Administration
- Labeling and Storage of Medication
- Training Caregivers/Teachers to Administer Medication

**FAMILY RESOURCES**

- Medication Safety
  - English and Spanish

Note: There is a free online course is offered by the American Academy of Pediatrics’ Healthy Futures for [Participants](#) and for [Instructors](#).
FOOD ALLERGIES

The resources below provide basic guidelines, best practices, and information about food allergies in early education settings (including information on care plans, anaphylaxis, and children with special health care needs). Local licensing requirements are available [here](#).

**BASIC REQUIREMENTS**

- **Food Allergies**
  - 4.2.0.10 Caring for Children with Food Allergies

**BEST PRACTICE**

- **Nutrition and Food Service**
  - Chapter 4 (p. 170)
  - Care for Children with Food Allergies

**ADDITIONAL RESOURCES**

- **Managing Chronic Health Needs in Child Care and Schools**
  - Care Plans (p. 21)
  - Anaphylaxis (p. 71)

- **Model Child Care Health Policies (5th Edition)**
  - Children with Special Needs and Disabilities (Special Conditions) (p. 73)

**FAMILY RESOURCES**

- Managing Food Allergies [English](#) and [Spanish](#)

Note: Another resource from CDC, [Volunteer Guidelines for Managing Food Allergies in Schools and Early Care and Education Programs](#) and [Tool Kit for Managing Food Allergies in Schools](#)
FACILITIES SAFETY

The resources below provide basic guidelines, best practices, and information about facilities safety in early education settings (including information on preventing accidents and injuries and evacuation of children with special health care needs). Local licensing requirements are available here.

BASIC REQUIREMENTS
Facilities, Supplies, Equipment, and Environmental Health
- 5.1.1.2 Inspection of Buildings
- 5.1.1.3 Compliance with Fire Prevention Code
- 5.1.1.5 Environmental Audit of Site Location
- 5.1.6.6 Guardrails and Protective Barriers
- 5.2.4.2 Safety Covers and Shock Protection Devised for Electrical Outlets
- 5.2.4.4 Location of Electrical Devices near Water
- 5.2.8.1 Integrated Pest Management
- 5.2.9.1 Use and Storage of Toxic Substances
- 5.2.9.5 Carbon Monoxide Detectors
- 5.3.1.1/5.5.0.6/5.5.0.7 Safety of Equipment, Materials and Furnishings

ADDITIONAL RESOURCES

Resources for Safe Playgrounds

Model Child Care Health Policies (5th Edition)
- Design and Maintenance of the Physical plant and contents (p. 113)
