TRIBAL CONCERNS AND RECOMMENDATIONS

As mandated by the Improving Head Start for School Readiness Act of 2007, the Office of Head Start (OHS) held a three-hour Tribal Consultation session in Marksville, Louisiana, on May 13, 2009, as part of the United South and Eastern Tribes (USET) Regional Tribal Consultation Session. Tribes from Regions I, II, IV, and VI participated in the joint meeting.

OHS met with Tribal Leaders to solicit input on ways to better meet the needs of American Indian and Alaska Native children and their families. General topics included National and Regional updates, funding allocations under the American Recovery and Reinvestment Act (ARRA), distribution formulas, and other issues affecting the delivery of Head Start services in the Tribes' geographic locations. Specific topics included policy, curriculum research, Head Start/Early Head Start conversion, program quality, and monitoring.

The concerns and recommendations communicated by Tribal Leaders and other participants at the session in Marksville are highlighted below.

ARRA / Cost of Living Allowance (COLA) Payments

- The COLA money is inspiring; however, it assumes that everyone is paid the same across the country, which is not true. Tribes understand that the COLA money must be used only toward salary. However, it would be more desirable to put COLA monies toward increasing the base grant. Tribes must work with Congress to increase base funding. More flexibility is needed with this funding.

Facilities

- One Tribe noted that it is contemplating the creation of an intergenerational facility, and perhaps using blended funding to help create a seamless curriculum. Are there programs that are successful in gaining assistance from OHS to obtain capital development funds for facility development and putting together programs?

Teacher Credentials/Professional Development

- Tribes want teachers with degrees, but the remote locations and availability of prospective staff may not make this possible. There is great concern about the 50% requirement.
- A more thorough understanding is needed on what constitutes a "recognized degree." Several staff have been with the Head Start program for a long time and offer life experience. Will "life experience" be considered eligible credit toward a degree?

Culture / Tradition

- Tribes are concerned about preserving their culture and want to encourage youth to interact with elders to have a connection to their community and culture.

Relationship Building

- Tribes are encouraged by having Nina McFadden as a representative for AIAN. It is important to recognize her value as the AIAN representative in OHS.
- Tribes must work at asking states to establish an Indian policy and working with States to share resources. Tribes must ask HHS agencies what they are doing for AIAN.
- What is the definition of “small” Tribes? Most Alaskan Tribes are under 200 people. How are the needs of small Tribes identified? Is an organization to address small Tribe issues needed?
- Tribal representation is needed in many Federal Agencies. An accurate measuring of indigenous populations is needed so it can be reflected accurately in the data.

Health Issues

- Tribes must seek out think tank organizations in Washington, D.C. to seek assistance on health issues. Collaboration with the National Indian Health Board is also important.

HEAD START FUNDING: AMERICAN RECOVERY AND REINVESTMENT ACT (ARRA) FY 2009 APPROPRIATIONS: POWERPOINT PRESENTATION

Head Start Funding

American Recovery and Reinvestment Act (ARRA)
FY 2009 Appropriations

1

ARRA Funding

- The American Recovery and Reinvestment Act (ARRA) includes a funding increase of \$2.1 billion for Head Start.
- \$1.1 billion of the funding is for Early Head Start expansion.
- \$1 billion of the funding is to be allocated in accordance with the statutorily mandated allocation requirements for Head Start.

2

FY 2009 Appropriations Increase

- In addition to the ARRA funding, Head Start was given a \$235 million increase in funding for fiscal year 2009.
- The total funding increase for Head Start is \$2.35 billion.

3

\$2.35 billion

This \$2.35 billion will be used for several purposes:

- COLA	\$ 325,577,000
- Quality	\$ 353,779,000
- Expansion	\$ 219,612,000
- EHS Expansion	\$ 1,157,000,000
- T/TA	\$ 140,820,000

4

\$2.35 Billion (cont'd)

COLA (\$325,577,000)

All grantees will get a funding increase of 4.9% to offset increased inflationary costs. Most staff should receive a 4.9% salary increase.

5

\$2.35 billion (cont'd)

QUALITY IMPROVEMENT (\$353,779,000)

- All grantees will get an increase in funding based on their number of enrolled children. The average increase will be 5%. Quality funds can be used to increase staff salaries and fringe benefits, hire additional staff, improve facilities and other quality related improvements.

6

\$2.35 billion (cont'd)

Head Start Expansion (\$120,000,000)

- Expansion will add another 16,600 children.
- AIAN grantees will compete for \$10 million in expansion funding. (The AIAN expansion allocation is determined by law.)

7

\$2.35 billion (cont'd)

Early Head Start Expansion (\$578,000,000)

- Funds will be competitively awarded.
- Expansion is not limited to current grantees.
- Any eligible agency may apply.
- AIAN will compete against other AIAN applicants.

8

\$2.35 billion (cont'd)

Training and Technical Assistance (\$140,000,000)

- Funds will be used for several purposes, including assisting newly funded EHS grantees.

9

Funding Availability

- ARRA funds are time limited (thru 9/30/2010)
- The \$235 million appropriation increase is not time limited and will be added to grantees' base funding.
- The \$235 million will provide for continuation of part of the COLA (3.1%) and all of the AIAN expansion (\$10M).
