

## Using Interactive Media in Early Learning Assignment

### *Review of Interactive Media*

#### Objective

To evaluate screen media for use in an early learning setting

#### Instructions

1. Pick a digital game to play and review for possible use in an early learning environment. Choose one that is designed to promote learning. Possible websites to use to choose games are:

- Common Sense Education <https://www.commonsense.org/education/> and Common Sense Media <https://www.commonsensemedia.org/>
- Chrome Web Store <https://chrome.google.com/webstore/category/app/8-education>
- PBS Kids <http://pbskids.org/>
- First 8 Studios <http://first8studios.org/gracieandfriends/cityskate.html>

All of these sites identify games available at no or minimal cost on specific web or mobile platforms..

2. Play the game.

3. Write a reflection of your experience playing the game and your recommendation regarding its use in early learning. Include why or why not you would use it in an early childhood setting and, if you are recommending it, how you would use it.

Make sure to consider the criteria for choosing interactive media that you developed earlier in this module. In addition, answer the question: *Based on your experience playing this game, would you add any criteria to your list for choosing screen media for early learning?* The paper should be at least one page and include a thesis statement (tells the reader what you intend to say), an introduction, and a summary.
