This includes real property that was improved using Federal funds and real property that was donated to a Federal project in the form of a match or cost share donation. This report is to be used for awards that establish a Federal Interest on real property. The instructions below address each section of the Real Property Status Report. 15. Has a significant change occurred with the real property, or is there an anticipated change expected during the next reporting period? Check the applicable block to indicate either “yes” or “no.” If a significant change has occurred (or is anticipated to occur during the next reporting period), such as a major building renovation or remodeling, damage to the real property due to an act of God (flood, hurricane, earthquake, etc.) or other significant change that would affect the value of the property, describe the change. 17. **Indicate the cumulative energy consumption for the previous 12 months.** Complete the appropriate block (A – D) to indicate the actual cumulative energy consumption for the property during previous 12 months.

- **Cumulative Energy Use** may be obtained from the facility utility bills or outreach to the utility provider. Depending on the locality, the bill may include only the current month or may include the total for the 12 months prior and post project completion. When the grantee is one tenant in a multi-tenant facility AND separate utility metering is not in place, pro rata estimating is appropriate. The anticipated energy consumption, post completion for new construction and renovation projects, should be available in the project plan. Use of the Portfolio Manager tool, a free application, is encouraged for the tracking of energy consumption data. (http://www.energystar.gov/index.cfm?c=evaluate_performance.bus_portfoliomanager)
