

Digging Deeper into Safety and Injury Prevention Data Health Chat Reflection Handout

THE NATIONAL CENTER ON
Health

Use this handout to take notes about how you would apply the techniques of aggregate and analyze in your program. When prompted, pause the health chat, complete the section identified by the presenter, and press play to continue the health chat to learn more.

Aggregate:

1. What surprised you?
2. What questions do you have?
3. What else do you want to look into?
4. What data do you want to pull?

Disaggregate:

5. How can you disaggregate your data so that you can learn more?

Compare:

6. What kinds of comparisons can you make?

Mean, Median, and Mode:

7. How will you use mean, median, and mode?

School readiness begins with health!

Data Action Plan

Directions: Using your notes from the health chat, consider what you will do differently as you aggregate and analyze data. Fill in specific tasks, resources, responsible individuals, and timelines to plan how you will implement new aggregation and analysis techniques.

| Action | Resources Needed | Responsible person(s) | Completion Date(s) |
|--------|------------------|-----------------------|--------------------|
| | | | |
| | | | |
