- Recording will be OnDemand on ECLKC.
As we get ready to move into the program year, **COVID-19 risk reduction strategies remain critical to protect all people**, especially children and staff who are not fully vaccinated, and especially in areas of moderate-to-high community transmission levels.

**Vaccination is the safest way to protect individuals and the people they live and work with from getting COVID-19.** Vaccines are working to prevent severe illness, hospitalization, and death.

Programs should plan to implement **layered risk reduction strategies** that include vaccines, masking, health screenings, physical distancing, ventilation, hand hygiene, and cleaning.

We encourage you to explore [#SleeveUp4HeadStart Social Media Toolkit](#) to encourage our OHS community to get vaccinated.
Today’s Presenters

• **Tabitha Temple** – Program Specialist, OHS
• **Marco Beltran DrPH** – Senior Program Specialist/FPO, OHS
